CHAIRMAN'S STATEMENT

Dear Shareholders:

I welcome you on behalf of the Board of Directors to the 25th Annual General Meeting of United Leasing Company Limited. It is my immense pleasure that this is the silver jubilee year of your Company and I thank our past and present directors, shareholders, employees and other stake holders for their support during this long journey.

I take this opportunity to brief you on the economy, the financial services sector and the performance of your Company during the year.

Economy

During the fiscal year 2012-2013, Bangladesh achieved a GDP growth of 6.03%, which although respectable as compared with the developed economies, was lower than last year (6.32% in 2011-2012) as well as the last five years average of 6.2%. The decline in growth was due to weaker aggregate demand, as private investment fell and consumption remained subdued, with imports remaining flat and credit growth slowing. The growing political uncertainty ahead of the national elections caused consumers to adopt a more cautious approach to spending and investors to postpone major investment decisions. Industry growth was led mostly by small-scale manufacturing. Agriculture growth in 2013 slowed on the back of unfavourable weather conditions and falling rice prices. Services growth also slowed, due to stagnant imports and frequent strikes which disrupted supply chains and trade and transport services.

Annual average inflation significantly decreased to 7.53% in 2013 from 10.6% in 2012 as a result of monetary program and also partially due to the recent disruptions which caused a slowdown in economic activity and lower consumer demand which resulted into significant decrease of non-food inflation. However, the major contributor to the inflation was the food sector which was led by higher distribution costs due to the frequent nationwide strikes and blockades.

Financial Services Sector

Bangladesh Bank's policy of cautious restriction of monetary supply was aimed at curbing inflation and preserving external stability, was successful in attaining the targeted real GDP growth however at the same time it left its impact on credit growth.

A few major financial scams were unearthed that shook the financial sector to its core and questioned some fundamental principles we take for granted in this sector. As a silver lining, Bangladesh Bank has strengthened its control over the state owned banks and has set a stringent financial improvement plan including differential ceilings on loan growth and regular reporting to Bangladesh Bank on a number of issues including loans beyond a certain limit, single borrower exposure, off-balance sheet items etc. Board accountability has been enhanced.

Bangladesh Bank has launched the Cost of Funds Index for the non banking financial institutions to strengthen the liquidity management capabilities and to create a benchmark for pricing. The index would be based on the weighted average interest rate of all non banking financial institutions of the Country. Bangladesh Bank expects to publish a similar index for the banks shortly.

The focus of the sector remained on lending business as the stock market continued its lack lustre performance.

Company Performance

I am pleased to inform you that your Company has successfully faced the challenges and has registered 29.38% growth in operating revenue and 16.33% growth in net profit over the previous year.

Earnings Per Share (EPS) on the basis of current number of shares, increased by 16.11% (from Taka 1.80 in 2012 to Taka 2.07). Net Asset Value (NAV), on the basis of current number of share, increased by 10.76% (from Taka 15.33 in 2012 to Taka 16.98).

Business

2013 was a challenging year. Despite the many adversities, retail deposit client base grew by 23.26% and portfolio by 13.76% to Tk. 5.12 Billion. On the other hand, loan portfolio had 9.18% growth and reached Tk. 9.84 Billion. Short term portfolio grew at 21.97% and stood at Tk. 1.52 Billion. This is our contribution to the country's initiative to increase financial inclusiveness.

Working capital solutions of your Company has been well accepted by the clients and now constitutes 11.70% of the portfolio. The working capital solutions are interlaced with physical service elements which help the clients to outsource some of their activities to your Company and this allows them to focus more on their business development. Our deposit product offerings are quite diversified and appeals to a wide range of customers.

A new branch has been opened in Mymensingh in 2013 and you would be pleased to know that we now serve clients through 17 offices located all over the country.

Cost Administration

Market remained liquid most of last year, which drove down the deposit rates. Your Company was successful in generating sufficient deposits to support the financing business at a rate comparatively lower than the market.

Legal expenses increased by 47.68%. It includes the full year's impact of doubling of stamp charges and increase of VAT from 4.5% to 15%. Recovery efforts increased relative to increase in number of clients and volume of finances in 2013. Communication expenses increased by 51.61% as more branches came under the Wide Area Network (WAN) and internet connectivity cost of the increased number of branches. Advertisement and printing expenses increased due to bill boards and signage in all the offices and advertisement in local newspapers. Increase in printing costs is due to increase of business volume.

Increase in cost is in general response to increase in cost of doing business due to adjustment of inflation. On the whole, operating costs increased by 13.50%.

You will be pleased to learn that in the face of increasing cost, our cost control supervision has been enhanced and costs are reviewed and variances of all the cost items are analysed on a monthly basis.

Risk Management

The developments and activities of Company's three risk management components during 2013 were as follows:

Pre-emptive Risk Management

Operational Risk Management (ORM) Committee revised many processes to manage risks and bring efficiency to the overall operations of the Company as well as to provide fair and equal treatment in internal operations to all the branches.

Knowledge Center analyzed various industries and prepared sector and sub sector reports to better understand the various business sectors. They also provided value added reports and presentations to the Credit-Sale Financing clients.

Human resource department successfully met the challenges of on time and appropriate staffing as and when they were needed. Your Company has implemented a green HR system that facilitates paperless process starting from electronic job application to the entire recruitment process and beyond. The Company continues its focus on increasing the per person productivity assessed by a quantitative evaluation system for all field level officers. Regular trainings were arranged as an ongoing effort to strengthen the understanding of our employees and thereby improve efficiency. During the year the Company provided a total of 161 man-days of training to 334 employees.

Contemporaneous Risk Management

Operations department improved their efficiency and maintained your Company's risk mitigating features. 2013 was challenging as business environment was not conducive to voluntary repayments because of disruptions created by the hartals and blockades. The collection, recovery and litigation teams were effective in keeping collection rate high and their recovery efforts yielded tangible results and non performing loan ratio were maintained at below 3.6%.

Post-facto Risk Management

The Management Information Systems department improved it reporting to help the senior management team to better direct the operations of the Company and enabled the mid level managers to better supervise their resources. Innovative analytical system has been developed for portfolio risk analysis and a better early warning system.

Internal Compliance Department continued evaluating the performances and effectiveness of the control mechanisms through audits of all departments and branches of the Company. The audit and inspection reports were regularly placed to the Audit Committee of the Board for its review and recommendations.

Sustainability Initiatives

The Company gives importance to environmental sustainability, which is reflected in both its financing and own activities.

Company initiatives: The Company for the last few years is taking initiatives to reduce its carbon footprint and has established paperless internal processes which have substantially reduced paper consumption. 45% of the workstations of your Company have been labeled 'green' where no print out takes place. In 2012, it was 35%. Gradually your Company is converting its traditional lighting systems with more environment friendly LED lighting systems. So far 11% of the lights have been converted.

Financing initiatives: Your Company has been conscious of the impact it's financing makes not just on the economic environment but also on the physical environment. This year we have started capturing quantitative data to measure our financing impact. The data is presented in the Sustainability Statement.

Post Balance Sheet Date Events

Subsequent to the balance sheet date, the Directors recommended 1 share for every 10 shares held and cash dividend of Tk. 0.50 per share. There were no circumstances in the Company in which non-disclosure affected the ability of the users of the financial statements to make proper evaluation and decisions.

Outlook

The challenges of 2014 would be to ensure economic growth. GDP growth is expected to be lower than 6.0% as businesses remained stagnant for a substantial period. Domestic demand is expected to remain cautious.

Bangladesh Bank will continue to take measures to preserve economic stability and at the same time contain inflation. Intensive monitoring and policy directions to the financial sector by Bangladesh Bank are expected to increase the sector's overall risk management capabilities and ensure transparency in operational processes.

Your Company is well prepared to take on the challenges in 2014. It has a nationwide footprint for both client sourcing and delivering services. Focus in 2014 would be to provide tangible and physical services to its clients which would enable them to achieve better business growth. The competition will obviously intensify. However, by improving service quality it is expected that the Company shall continue to march forward. Service attitude and capabilities would be further improved and your Company will continue to expand its client base and portfolio across all its products.

Acknowledgement

We wish to thank our valued customers, shareholders, regulators, lenders and the international agencies for their continuous support and cooperation.

I take the privilege of thanking my colleagues in the Board of Directors of the Company for their contribution towards development of the Company and the support rendered to me during the year in conducting the meetings of the Board of Directors.

Last but not the least, I also express my gratitude to all the employees of the Company for their sincere and dedicated services to the growth of the Company.

Sincerely,

Imran Ahmed Chairman of the Board

Financial Statements

AUDITORS' REPORT TO THE SHAREHOLDERS

We have audited the accompanying financial statements of United Leasing Company Limited (the "Company") which comprise the balance sheet as at 31 December 2013, and the profit and loss account, statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies, other explanatory notes and annexure.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRS) as explained in note 2, the Financial Institutions Act 1993, the Companies Act 1994, The Securities and Exchange Rules 1987, the rules and regulations issued by the Bangladesh Bank and other applicable laws and regulations, and for such internal control as management determines in necessary to enable the preparation of the financial statements of the Company that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of the risks of the material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the financial statements prepared in accordance with Bangladesh Financial Reporting Standards (BFRS) as explained in note 2, give a true and fair view of the state of the Company's affairs as on 31 December 2013, and of the results of its operations and its cash flow for the year then ended and comply with the Financial Institutions Act 1993, the Companies Act 1994, the Securities and Exchange Rules 1987, the rules and regulations issued by the Bangladesh Bank and other applicable laws and regulations.

The Company has its registered office at Camellia House, 22 Kazi Nazrul Islam Avenue, Dhaka.

1.2 Nature of operations and principal activities

The Company provides financial services which includes lease finance for acquiring assets for industrial and commercial use, term loans for meeting long term funding requirement, short-term working capital solutions and home loans to cater the needs of its diverse client base. The Company offers various deposit investment opportunities of predefined tenure ranging from six months to ten years.

2. Significant accounting policies

2.1 Measurement bases

The financial statements of the Company have been prepared on historical cost convention in compliance with the Bangladesh Financial Reporting Standards (BFRS).

2.2 Preparation and presentation criteria of financial statements

The financial statements have been prepared on a going concern basis following accrual method of accounting except for the cash flow statement and in conformity with the Bangladesh Financial Reporting Standards(BFRS), the Companies Act 1994, the Financial Institutions Act 1993, the Securities and Exchange Commission Rules 1987, the Regulations and Guidelines from Bangladesh Bank and the Listing Regulation of Dhaka Stock Exchange.

2.3 Use of estimates

The preparation of financial statements requires the management to make estimates and assumptions that affect the reported amount of assets, liabilities and disclosure of contingent liabilities as at the date of the financial statements. Management believes that these estimates and assumptions are reasonable and prudent. However, the actual results could differ from estimates.

2.4 Reporting currency and level of exactitude

The figures in the financial statements have been stated in Bangladesh Taka which is the Company's functional currency and have been rounded off to the nearest integer.

2.5 Comparative information

Last year's figures and account titles have been rearranged to conform current year's presentation in accordance with the Bangladesh Bank DFIM Circular no. 11 dated December 23, 2009.

2.6 Authorization for Issue of the Financial Statements

The Board of Directors of the Company has authorized these financial statements for issue on March 05, 2014.

2.7 Materiality of financial statements

Each material item, as considered by management significant, has been presented separately in the financial statements wherever applicable.

2.8 Cash flow statement

Cash flow statement is prepared in accordance with BAS - 7 "Cash Flow Statement" and Bangladesh Bank DFIM Circular No - 11 dated December 23, 2009 under the direct method for the period, classified by operating, investing and financing activities in cash and cash equivalents during the financial year.

2.9 Statement of changes in equity

Statement of changes in equity is prepared in accordance with BFRS - 1 "Presentation of Financial Statements" and Bangladesh Bank DFIM Circular No - 11 dated December 23, 2009 which reflects the increase and decrease in net assets or wealth.

2.10 Liquidity statement (asset and liability maturity analysis)

Liquidity statement is prepared in accordance with Bangladesh Bank DFIM Circular No-11 dated December 23, 2009 on residual maturity term of assets and liabilities as on the reporting date based on the following assumptions.

- Balance with other Banks and financial institutions, money at call and short notice, etc. are on the basis of their maturity term
- ii) Investments are on the basis of their respective maturity
- iii) Lease, loans and advances are on the basis of their repayment schedule
- iv) Fixed assets are on the basis of their useful lives
- v) Other assets are on the basis of their realization / amortization
- vi) Borrowing from other Banks, financial institutions and agents, etc are as per their maturity / repayment terms
- vii) Deposits and other accounts are on the basis of their maturity term and past trend of withdrawal.
- viii) Provisions and other liabilities are on the basis of their payment/adjustments schedule.

2.11 Assets and bases of their valuation

2.11.1 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand, bank balances and deposits held at call with banks and financial institutions and short term liquid investments that are readily convertible to known amount of cash which are unlikely to be affected by any insignificant risk of change in value.

2.11.2 Accounting for leases

Following Bangladesh Accounting Standards (BAS) 17 "Leases", accounting for lease transactions have been recorded under finance lease method since all the risks and rewards incidental to ownership are substantially transferred to the lessee as per agreement. Accordingly the aggregate lease receivables excluding un-guaranteed residual value throughout the primary lease term are recorded as gross lease receivables while the excess of net lease receivables over the total acquisition cost constitutes the unearned lease income.

The unearned lease income is amortized to revenue over the primary lease term yielding a constant rate of return over the period. Initial direct costs, if any, are charged in the year in which such costs are incurred.

2.11.3 Accounting for Loans

Receivables against term loans including short term loan and home loan comprise of principal amounts due from customers against these loans. Accrued interest thereon are accounted for on accrual basis and shown separately.

2.11.4 Accounting for investment

Investments are carried at the lower of cost or market value on an individual basis in accordance with the instruction of Bangladesh Bank.

2.11.5 Fixed assets and depreciation

Recognition

All property, plant and equipment are initially stated at cost and depreciated over their expected useful lives. The cost of acquisition of an asset is comprised of its purchase price and any directly attributable cost of bringing the asset to the location and condition for its intended use inclusive of duties and non-refundable taxes.

Fixed asset acquired under finance lease is accounted for at the lower of present value of minimum lease payments under the lease agreements and the fair value of the asset. The related obligation under the lease is accounted for as liability. Finance charges are allocated to accounting period in a manner so as to provide a constant rate of charge on the outstanding liability.

Subsequent cost related to property, plant and equipment is capitalized only when it increases the future economic benefit from the asset. All other expenditures are recognized as expenses as and when they are incurred.

Depreciation

Items of property, plant and equipment are depreciated based on straight-line method throughout the estimated span of useful life ranging from five to eight years. Additions are depreciated for the full year irrespective of the date of acquisition of assets at the applicable rates while no depreciation is charged on any item in the year of its disposal. Depreciation is calculated on the cost of fixed asset in order to write off such amount over the estimated useful lives of such assets. The rates of depreciation used are as follows:

Furniture & fixture 12.50%

Office equipment 15.00%

Electrical equipment 20.00%

Motor vehicle 20.00%

Derecognition

An item of property, plant and equipment is de-recognized on its disposal. The gain or loss arising from de-recognition of an asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

2.11.6 Account receivable

Account receivable at the balance sheet date is stated at amounts which are considered realisable. Specific allowance is made for receivables considered to be doubtful for recovery.

2.12 Liabilities and bases of their valuation

2.12.1 Provision for doubtful assets

Provisions, specific and general, are made on the basis of year end review by the management as per policy of the Company and guidelines contained in Bangladesh Bank's FID circulars. Specific provisions are made where the repayment of identified leases/loans are in doubt and reflect an estimate of the amount of loss anticipated and the general provision is made for the inherent risk of losses. Provisions are applied to write off leases/loans, in part or in whole, when they are considered wholly or partly irrecoverable.

An appropriate general and specific provision for unclassified and classified leases, loans and advances at varying rates depending on the degree of risk associated with the certainty of collection has been provided as per company policy in excess of regulatory requirement.

2.12.2 Income taxes

Current tax

Current tax expense is provided on estimated taxable profit for the year at the tax rate applicable for the year.

Deferred tax

Deferred taxation is provided in full for all temporary differences arising between tax bases of assets and carrying amount of assets in the financial statements. Deferred tax assets are recognised to the extent that it is

probable that future taxable profit will be available against which the temporary differences can be utilised. Tax rate prevailing at the Balance Sheet date is used to determine deferred tax.

2.12.3 Provision for accrued expenses

Provisions have been recognized in the balance sheet as follows:

- a. when the Company has a present obligation, legal or constructive as a result of a past event,
- b. when it is probable that an outflow of resources embodying economic benefits will be required to settle that obligation; and
- c. when a reliable estimate can be made of the amount of the obligation.

2.12.4 Employee benefits

Provident fund

A contributory Provident Fund is operated by the Company on equal participation from both parties, the Company and the employee. The Fund is recognized by the National Board of Revenue and is administered by a Board of Trustees.

Gratuity fund

A separate funded gratuity scheme is maintained by the Company to motivate its employees for long term retention. Gratuity scheme is applicable for all its permanent employees who have completed their length of service at least for five years without any break. Provision for gratuity is made annually considering all its eligible employees available at the end of the year.

Other long term benefits

The Company operates a group life insurance scheme for all of its permanent employees. It maintains a health insurance scheme for all of its permanent employees, their spouse and children.

2.12.5 Contingent liabilities and contingent assets

The contingent liability and contingent asset are not reflected in the balance sheet but the existence of contingent liability is disclosed in the financial statements. A contingent liability is a probable obligation that arises from past events whose existence will be confirmed by occurrence or non-occurrence of uncertain future events not within the control of the Company or a present obligation that is not recognised because outflow of resources is not likely or obligation cannot be measured reliably.

2.12.6 Proposed dividend

Dividend proposed by the Board of Directors for the year shall be recognized and is accounted for after approval by the shareholders at the Annual General Meeting.

2.13 Revenue recognition

2.13.1 Interest income

Interest income comprises of interest income from lease, loans and advances and interest on placement of fund with banks and other financial institutions. Interest due is recognised on accrual basis using the effective interest method. Interest due over ninety days is not recognised as revenue rather it is recognised as interest suspense. Suspended interest is recognised as income on cash basis when it is received.

2.13.2 Lease income

The excess of gross lease rentals receivable over the cost of the leased asset represents the total unearned income at the time of execution of lease. The unearned income is allocated over the period of lease in a pattern reflecting a constant return on the net investment.

2.13.3 Hire purchase income

Finance income against hire purchase arrangement is allocated to the income statement over the hire purchase period to give a constant periodic rate of return on net receivable.

2.13.4 Income from long term and short term finance

Income from long and short term finance is recognized as revenue when the interest is due. Interest due over ninety days is not recognized as revenue rather it is recognized as interest suspense. Suspended interest is recognized as income on cash basis when it is received.

2.13.5 Income from dividend

Dividend income from investment in equity shares is recognised when the right to receive the payment is established. Dividend income from preference shares is recognised on accrual basis considering the establishment of right to receive the same.

2.13.6 Income from bank deposits

Interests from short term deposits and fixed deposits are recognized on accrual basis taking into account the principal outstanding and the effective interest rate.

2.13.7 Fee based income

Fee based income is recognized as revenue when it is received.

2.13.8 Interest paid on deposits, borrowing, etc.

Interest paid comprises of the interest payable on external borrowing, individual and institutional deposits and direct deposit expenses and are recognized as they accrue.

2.13.9 Impairment of assets

The carrying amounts of the property, plant and equipment and intangible assets are reviewed at each balance sheet date or whenever there is any indication of impairment. If any such indication exists, the assets recoverable amount is estimated. An impairment loss is recognized whenever the carrying amount of the asset exceeds its recoverable amount. Impairment losses, if any, are recognized in the profit and loss account.

2.14 Related party disclosure

The Company transacts with related parties. Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related party transactions have been disclosed in note 41.

2.15 Earning per share

Earning per share has been calculated in accordance with BAS 33 "Earning Per Share" and shown on the face of Profit and Loss Account. Basic earning per share is calculated by dividing the net profit attributable to shareholders by the average number of ordinary shares during the financial year. Retrospective recognition has been given in previous year's figure for issuance of bonus shares during the financial year.

2.16 Events after the balance sheet date

Events after the balance sheet date are those events that occur between the balance sheet and the date when the financial statements are authorized for issue. All material events occurring after the balance sheet date have been considered in these financial statements.

2.17 Disclosure of deviations from few requirements of BAS/BFRS due to regulatory compliance of Bangladesh Bank's requirements

Bangladesh Bank is the prime regulatory body for banks and financial institutions in Bangladesh. Some requirements of Bangladesh Bank's rules and regulations contradict with those of BAS and BFRS. As such, the Company has, in some cases, complied with the rules and regulations (i.e. valuation of investments, provision for impairment on lease, loan and advance, disclosure, etc.) of Bangladesh Bank.

2.18 Financial risk management policies and objectives

The Board of Directors of the Company sets the overall risk appetite and philosophy; the risk and capital framework underpins delivery of the Board's strategy.

It is the Company's policy to optimize return to shareholders while maintaining a strong capital base and credit rating to support business growth and meet regulatory capital requirements at all times.

The main financial risks facing the Company and its management are as follows:

Credit risk

Credit risk is the risk arising from the possibility that the Company will incur losses from the failure of customers to meet their obligations.

The Company has segregated duties for the officers involved in credit related activities. Credit evaluation, credit administration and credit monitoring and recovery functions are segregated and delegated to credit evaluation department, operations department, collection and special assets management department respectively.

Risk Review department is entrusted with the task of managing the internal risk rating model. This Internal Rating Based (IRB) approach, recommended by the Basel-II committee and also by the Bangladesh Bank in its Supervisory Review Process, coupled with our data integrity management process of monthly credit audit, helps manage asset quality and establishing a prudent credit culture within the Company that is efficient and transparent.

Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its obligations as they fall due.

The Company's liquidity policy is designed to ensure that it can at all times meet its obligations as they fall due. Liquidity management focuses on overall balance sheet structure and the control, within prudent limits, of risk arising from exposure to the mismatch of maturities across the balance sheet and from undrawn commitments and other contingent obligations. The management of liquidity risk is carried out by Treasury department under approved policy guidelines. Compliance is monitored and coordinated by Treasury both in respect of internal policy and the regulatory requirements. The liquidity management is monitored by Asset Liability Committee (ALCO) on a regular basis. A contingency plan is in place for managing extreme situation. The risk of short term mismatch can be met by the undrawn commitment and expected renewal of deposits.

Market risk

Market risk is defined as the risk of loss resulting from adverse changes in risk factors such as interest rates, and equity prices together with related factors such as market volatilities. The Company is exposed to market risk because of positions held in its trading portfolios and its non-trading businesses.

Interest rate risk arises from the Company's treasury activities and lending businesses due to mismatches between the future yield and funding cost is managed daily by the Treasury department and monthly reviewed by Asset Liability Committee to monitor the interest rate movement and devise a number of alternative options to mitigate possible interest rate risks.

Equity positions can result in changes in the Company's non-trading income and reserves arising from changes in equity prices/income. Such exposure may take the form of listed and unlisted equity. The type, nature and amount of equity exposure held by the Company is not significant. The market value of the equity assets held by the Company at the balance sheet date is much higher than cost price.

Operational risk

Operational risk arises from inadequate process, misuse of process, from human or system error or from external factors.

The Operation Risk Management Committee is responsible for identifying operational risks and take steps to mitigate such risks. The Committee Comprises of the Head of Development, Head of Human Resources and the Head of Information, Communication and Services. The Committee reviews operational processes and evaluates the process in terms of efficiency and adequacy of the process to ensure adequate control. Processes are re-engineered to improve efficiency without diluting the control/risk. The re-engineered process is documented and imparted among the stakeholders of the process to ensure the process delivers as expected. To prevent misuse, 'maker and checker' concept is implemented in every step of operational processes. Also appropriate trainings are arranged regularly to reduce human errors. New products are also designed with internal risk mitigating features.

3.3 Statutory deposits

Cash Reserve Requirement (CRR) and Statutory Liquidity Reserve (SLR)

Cash Reserve Requirement and Statutory Liquidity Reserve have been calculated and maintained in accordance with section 19 of the Financial Institutions Act 1993, regulation 5 of the Financial Institution Regulations 1994 and FID circular no. 6 dated November 06, 2003 & FID circular no. 02 dated November 10, 2004.

The Cash Reserve Requirement on the Company's term deposits received from public at the rate of 2.5% has been calculated and maintained with Bangladesh Bank in current account and 5% Statutory Liquidity Reserve, including CRR, on the total liabilities has been maintained in the form of balance with banks and the Company's call money deposit. Both the reserves maintained by the Company are in excess of the statutory requirements, as shown below:

a) Cash Reserve Requirement (CRR)

Required reserve (2.5% on deposit) Actual reserve maintained (note-3.2) Surplus

| 46,792,679 | 5,719,523 |
|-------------|-------------|
| 203,337,330 | 148,011,523 |
| 156,544,651 | 142,292,000 |

Actual reserve is higher than required reserve due to Bangladesh Bank cheque deposited as on December 31, 2013 which actually cleared on January 01 & 02, 2014 & additional fund kept for Bangladesh Bank refinance payment.

b) Statutory Liquidity Reserve (SLR)
